Technology Education

Mission Statement and Philosophy

Mission Statement

The mission statement for the department of Technology Education is as follows: Technology Education is an action-based program for all students to learn how to develop, produce, use, and assess the impacts of products and services that extend the human potential to improve and control the natural and human-made environment.

Philosophy

The philosophy / beliefs of the department of Technology Education are designed to help students understand and to participate in the technological society today and tomorrow. Technology Education provides an opportunity for students to learn about the processes and knowledge related to technology. Technology education provides the understanding and problem solving skills needed by people throughout their lives.
